

Wood product certifications

On its industrial premises and throughout its product range, Legrand **favours the use of materials and processes which respect** people and the environment.

In this context and out of a constant concern for transparency towards its clients, Legrand has made a commitment towards **forestry certifications**, so as to be able to guarantee customers that wood-based products they purchase come from **sustainably developed** and **managed** forests.

The **FSC®** and **PEFC™** certifications are tools which allow for confidence to be established between Legrand and its clients.

Below is a table showing our products which are covered by these certifications:

CAT. NO.	PRODUCT DESCRIPTION	CERTIFICATION	WEEK OF APPLICATION (FROM YEAR W WEEK)
0 690 51		FSC 100%	16W09
0 690 52		FSC 100%	16W12
0 690 53		FSC 100%	16W26
0 690 54		FSC 100%	16W45
0 690 55		FSC 100%	17W38
0 690 58		FSC 100%	18W03
0 692 01		PEFC 100% Certified	16W16
0 692 02		PEFC 100% Certified	16W16
0 692 03		PEFC 100% Certified	16W16
0 692 04		PEFC 100% Certified	17W10
0 692 10		PEFC 100% Certified	17W43
0 692 11		PEFC 100% Certified	16W43
0 692 12		PEFC 100% Certified	16W39
0 692 13		PEFC 100% Certified	16W33
0 692 14		PEFC 100% Certified	16W25
0 692 20		PEFC 100% Certified	17W02
0 692 21		FSC 100%	16W19
0 692 22		FSC 100%	16W37
0 692 23		FSC 100%	16W19
0 692 24		FSC 100%	16W23
0 692 25		FSC 100%	17W10
0 692 28		FSC 100%	16W19
0 694 01		FSC 100%	16W14
0 694 02		FSC 100%	16W33
0 694 03		FSC 100%	16W19

Wood product certifications

CAT. NO.	PRODUCT DESCRIPTION	CERTIFICATION	WEEK OF APPLICATION (FROM YEAR W WEEK)

0 694 33		PEFC 100% Certified	17W47

Legrand holds FSC[®] and PEFC[™] certification

FSC Certification

The mark of
responsible forestry

FSC is an organisation established in Canada in 1993: it is an independent, international, non-governmental and not-for-profit association established at the initiative of environmental-protection associations.

FSC certification means that wood comes from sustainably managed forests. This certification stringently respects specifications including ten compulsory criteria such as replantation, biological diversity, ecological exploitation, workers' rights, etc.

[For more information, please visit the FSC website](http://www.fsc.org)

PEFC Certification

PEFC is a European forestry certification programme, established in 1999 at the initiative of owners and operators of private forestry areas.

PEFC certification means that wood comes from sustainably managed forests as required by the Helsinki Criteria which define the economically reliable management of forests, appropriate from an environmental perspective and beneficial from a social perspective. The PEFC label can only be used on products if the percentage of certified fibres is equal to or higher than 70%.
